1. COMPREHENSIVE PLAN AMENDMENT, CPA #10-01, DOWNTOWN MASTER PLAN. Amend the Town of Herndon 2030 Comprehensive Plan adopted August 12, 2008, to incorporate by reference a Downtown Master Plan. The plan amendment will also make minor changes to the appropriate plan text (mainly Chapter III: Land Use Plan) in order to reference a master plan. The general purpose of the plan amendment is to carry out the vision, goals and objectives of the 2030 Comprehensive Plan to encourage a vital downtown with a mix of land uses. The master plan depicts residential, commercial and public uses and parking facilities to support these uses; the plan displays the approximate height and level of density on each block of a core downtown area. The area is similar or equal to areas displayed as Sectors 1, 2 and 3 in the 2030 Comprehensive Plan. 16 block areas are affected; they are located in the center of the Town of Herndon in the general area of Elden Street, Center Street, Vine Street, Lynn Street, Station Street, Spring Street, Pine Street, Monroe Street, Jefferson Street, Jackson Street, Van Buren Street and the Washington and Old Dominion Railroad Regional Park. Downtown Master Plan maps and related information are posted on the Town of Herndon website at www.herndon-va.gov (click on Planning and Zoning and follow links). A descriptive summary of the proposed action is to update plan text and maps to reflect changed conditions and to incorporate land use policy based on the results of a major community planning process. *Continued from the November 1, 2010, public hearing.*

Area Plan Option One proposes a density of 2.5 Floor Area Ratio in the core of the transit-oriented development area, a 2.5 Floor Area Ratio in the transition area abutting the core, and a 0.7 Floor Area Ratio along the study area boundaries that abut existing residential neighborhoods. Area Plan Option Two proposes a density of 4.5 Floor Area Ratio in the core of the transit-oriented development area, a 3.0 Floor Area Ratio in the transition area abutting the core, and a 0.7 Floor Area Ratio along the study area boundaries that abut existing residential neighborhoods.
